# Archon Systems InFlow Inventory V2.2.3.1 Premium By Cool Release

"Archon Systems InFlow Inventory v2.2.3.1 Premium By Cool.. Archive Â· Alain Bidaud 29 May 2013. La ministre de la Santé, Danielle McCann, a annoncé un changement de règles sur la vente d'allonges d'aluminium aux pharmaciens. Le ministère de la Santé a annoncé qu'il allait permettre aux pharmaciens de vendre du propylène glycol au commerce hors des dépanneurs. Auparavant, la vente de tous les types de produits pharmaceutiques dans les pharmacies était interdite par décret ministériel. «Rétablir la véritable circulation des produits pharmaceutiques dans les pharmacies et l'internet permettra d'aller de l'avant avec la prise de conscience que ces produits ne sont pas seulement disponibles dans les pharmaciens. Dans les lieux où ils sont représentés, ils sont toujours disponibles», a déclaré Danielle McCann. Le propylène glycol est généralement utilisé comme allonge de vitre pour les rayons du supermarché. Il s'agit du produit intermédiaire usuel lorsque la vitre est refroidie, avant l'emploi de l'alcool. Le ministère de la Santé a aussi annoncé la libération du thé. «Nous allons permettre aux pharmaciens de vendre le thé dans leurs magasins de plus de 1 m2, sans la restriction de confiner dans les pièces où il est stocké ou ailleurs. Le thé n'est pas en compétition avec les autres produits pharmaceutiques», a noté Danielle McCann. Les changements nécessitent une nouvelle réglementation et un nouveau décret ministériel. La transposition du Code des marchés publics nécessite aussi un décret ministériel
